CHAITANYA PAL

Gurugram, Haryana ● +91 9310258092 ● palchaitanya59@gmail.com ● *GitHub: github.com/ChaitanyaPal-developer*

PROFESSIONAL SUMMARY

Motivated 2nd-year B.Tech Computer Science student at K.R. Mangalam University with hands-on experience in full-stack web development. Proficient in building responsive interfaces with React.js and robust back-end solutions using Node.js, Express.js, and MongoDB. Passionate about crafting efficient, scalable applications and actively seeking internship opportunities to contribute to real-world projects and grow as a software developer.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering
K.R. Mangalam University, Sohna, Gurugram | *2025 – 2029 (Currently in 2nd Year)*

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, HTML5, CSS3
Frontend Development: React.js, Responsive Web Design, DOM Manipulation
Backend Development: Node.js, Express.js, MongoDB
Databases: MongoDB (NoSQL)
Tools & Technologies: Git, GitHub, VS Code, npm, REST APIs
Core Concepts: Object-Oriented Programming, MVC Architecture, UI/UX Basics

PROJECTS

Smart Utility Toolkit | *Node.js | Express.js | MongoDB*
A multi-feature productivity web app built on Node.js and Express.js with MongoDB. Bundles a task manager, notes keeper, and data converter accessible via a clean REST API — demonstrating server-side routing, middleware usage, and database CRUD operations.

React Weather Tracking App | *React.js | REST API | CSS3*
Real-time weather app built with React.js that fetches live data from a public weather API, dynamically rendering temperature, humidity, and wind speed per user-searched city. Showcases component architecture, React hooks, and seamless API integration.

React Form Handling App | *React.js | React Hooks | Validation*
A multi-step form application in React.js featuring real-time validation, controlled components, and clean state management via hooks. Implements user-friendly error handling and responsive layout following modern React best practices.

Amazon Website Clone | *HTML5 | CSS3*
Pixel-accurate front-end clone of the Amazon homepage including navigation bar, hero banner, product cards, and footer — built purely with HTML and CSS to master UI structuring and responsive styling.

Calculator App | *HTML5 | CSS3 | JavaScript*
Fully functional calculator with keyboard support, chained operations, and edge-case error handling — demonstrating strong DOM manipulation and event-driven JavaScript fundamentals.

Browser-Based Game | *HTML5 | CSS3 | JavaScript*
Interactive browser game using pure JavaScript with game logic, collision detection, score tracking, and smooth animations — showcasing core JS proficiency without any external frameworks.

ACHIEVEMENTS, ACTIVITIES & INTERESTS

- Participated in university-level Hackathons — received Participation Certificates, demonstrating ability to build functional solutions under tight deadlines and collaborate effectively in team settings.
- Active member of the Sports Club at K.R. Mangalam University, contributing to team activities and maintaining a disciplined academic-sports balance.
- Passionate about full-stack development and building personal projects to apply new technologies and strengthen practical coding skills independently.
- Avid Cricket player — regular participant in university sports and inter-department matches.
